AUDITOR'S CERTIFICATE

Salisbury, N. H., August 28, 1937.

I hereby certify that I have examined the accounts of the School Treasurer for the year ending June 30, 1937, and find them correctly cast and properly vouched.

GEORGE C. EMERSON, Auditor.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens:

In recent years the first consideration of many citizens in opening the school report is the cost of the schools. I, therefore, speak first of the budget for the coming year.

The Board recommends the raising of a total amount of \$350 less than was raised last year. The deficit for the current year, estimated at \$385, was reduced today to \$185 through notice of \$200 additional State Aid.

Items which helped to cause this deficit are: Loss of dog money \$113, because of damage by dogs amounting to more than twice that amount; cost for transportation and tuition of elementary school children \$116 above amount estimated last March; transportation of one child above the eighth grade, but under fourteen years old, in accordance with a new law, \$48; salary increases. South Road teacher \$50, music teacher \$25; twenty-five pupils' desks and chairs for South Road \$28.50; Total, \$380.50.

The estimated cost of installing the septic toilets at South Road was exceeded by about \$160, but this amount is covered by small savings in other items.

The sill at South Road has been replaced as authorized by the last district meeting, but the bill has not yet been presented. Under Article 9 of the Warrant the amount of this bill should be added to the revised amount (\$185.00) asked for.

The type of toilet installed at South Road is comparatively new, but it has been in use long enough to justify the belief that it will be much more satisfactory and its cost of maintenance will be less than the chemical toilets replaced. It may be necessary to make small changes in the vent pipes to comply with specifications, but at present it is vastly superior to the old toilets.

It will probably be necessary to change the toilets at the Heights within a few years. Is it too much to hope that before that time comes many of us, especially the younger and more optimistic ones, those with thoughts toward the future rather than the past, will consider seriously the abandonment of the policy of occasionally patching the old unsatisfactory buildings and decide to build a new modern building to accommodate all the children in town, located on a good sized lot somewhere between the two buildings now in use?

In respect to attendance and tardiness, the record for 1936-37 is even better than 1935-36.

Two good teachers are in charge of the schools. I trust that you have noted results from the teaching of music amply justifying the small added cost.

Respectfully,

GEORGE W. SUMNER.

February 9, 1938.
